# Foodservice

Cooking

## One kitchen, infinite possibilities.

We offer a **wide range of industrial kitchens** perfect for meeting all the needs that chefs and professional kitchens can have.

Every one of them is meticulously studied and developed in terms of **quality, safety and hygiene**.

Its design meets the requirements of the most demanding chefs: based on **reliability and user-friendliness, elegant aesthetics and innovative technology**.

Made-to-measure kitchen: Symphony

Single-worktop kitchen: KORE Monoblock

KORE 900 generation modular kitchen

KORE 700 generation modular kitchen

Modular kitchen: 600 Range

High-Production Equipment

Independent cooking

## The smart revolution of your kitchen.

iKORE is a generation of **smart ovens**.

**Two ranges** that adapt to the needs of each chef: a professional, configurable oven that stands out for its **precision cooking results**, thanks to its steam saturation system and efficient climate management.

We also merge heating and refrigerating processes with a single **perfect solution: Cook & Chill**. This equipment combines professional ovens with industrial blast chillers, allowing professional kitchens to optimise their work, performance, efficiency and productivity.

In addition, we have an **extensive catalogue of accessories** that meet all kitchen needs and allow you to get the most out of your professional oven.

Commercial refrigeration

## Leading European manufacturer of commercial refrigeration.

Being the **leading European manufacturer of commercial refrigeration equipment** has allowed us to make the investments in **technology, R&D and productive capacity** that are necessary to develop the solution you are looking for.

We have **3 cold manufacturing plants** around the world, such as the plant in Lucena (Cordoba), which has an industrial complex of 85,000m<sup>2</sup>, or the plant in Poland with 15,500 m<sup>2</sup>. In addition, we have **more than 1,000 points of sale**.

Cellars

Distribution trolleys

Static preparation

## Designed to work. Built to last.

Every meal starts in the preparation area. To **ensure perfect service**, we have created a range of **robust and durable** static preparation solutions, with a wide variety of options, that guarantee chef **productivity and ergonomics**, meet the highest hygiene standards and are aesthetically integrated with the rest of Fagor Professional products.

# Laundry

Professional laundry

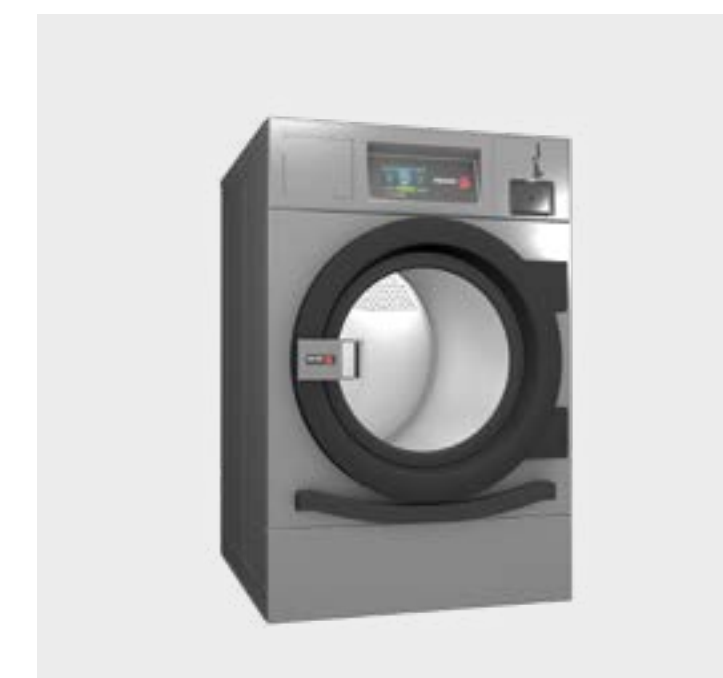

## Much more than professional laundry A new laundry concept

We offer you the best solution to each of your needs. And we know how to adapt to new demands that arise on the market.

Compact is the **range of professional laundry products** specifically designed for **small facilities** (hairdressing salons, gyms, campsites, etc.) that require the same performance and robustness as industrial laundry machines, but with **greater versatility, a more compact size and a more affordable price.**

Compact washers

Compact dryers

Compact Washer and Dryer stack

Washing

## Excellent washing and care results.

A **wide variety of models** to adapt to all types of market needs. The different types of industrial washing machines adapt to all requirements in terms of **efficiency and capacity**, whatever the type of business, its size and dimensions.

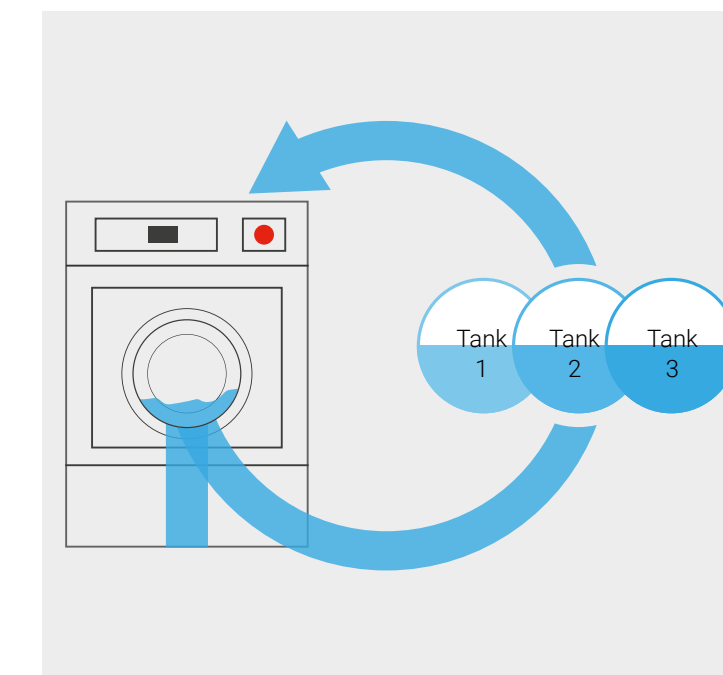

**Front-opening washing machines**, with three different spin speeds, washing machines for those places where hygiene plays a fundamental role, the so-called **sanitary barrier washers** and finally, we have a revolutionary **water recovery system**, a clear example of the importance we give at Fagor Professional to saving both environmental and economic resources.

Drying

## Attractive or effective? Robust or easy to maintain? We give you it all.

With the KARE generation, we have been sure to put all our innovations at your disposal. The **intelligent control** is easy to use and guarantees optimum care for your linen. Our machines have an **ergonomic** design and the components have been installed to **facilitate maintenance**. KARE cares about your comfort and offers **complete connectivity** so that you can manage your wash wherever you are.

One-drum dryers

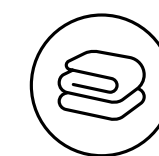

Heat pump dryers

Stacked dryers

Ironing and folding

## Quality in ironing, recognised by the users.

Fagor Professional's industrial ironers are designed to give the **highest performance and productivity** with truly outstanding **energy efficiency and time saving qualities**, and their simplicity of operation means that maintenance costs are practically non-existent.

Quality in the ironing of flatwork with our machines is recognised by users and valued as one of the most outstanding features.

## Solutions

# Where there is a problem, there is an innovative solution.

At Fagor Professional we have always been committed to innovation in our solutions. Our innovations go beyond the sector standards, showing our commitment to new and improved proposals. We offer solutions for **self-service laundry, wet cleaning and "Laundry2GO"**, a transportable module system that enables the creation of a laundry establishment in a single step.

# Professional services

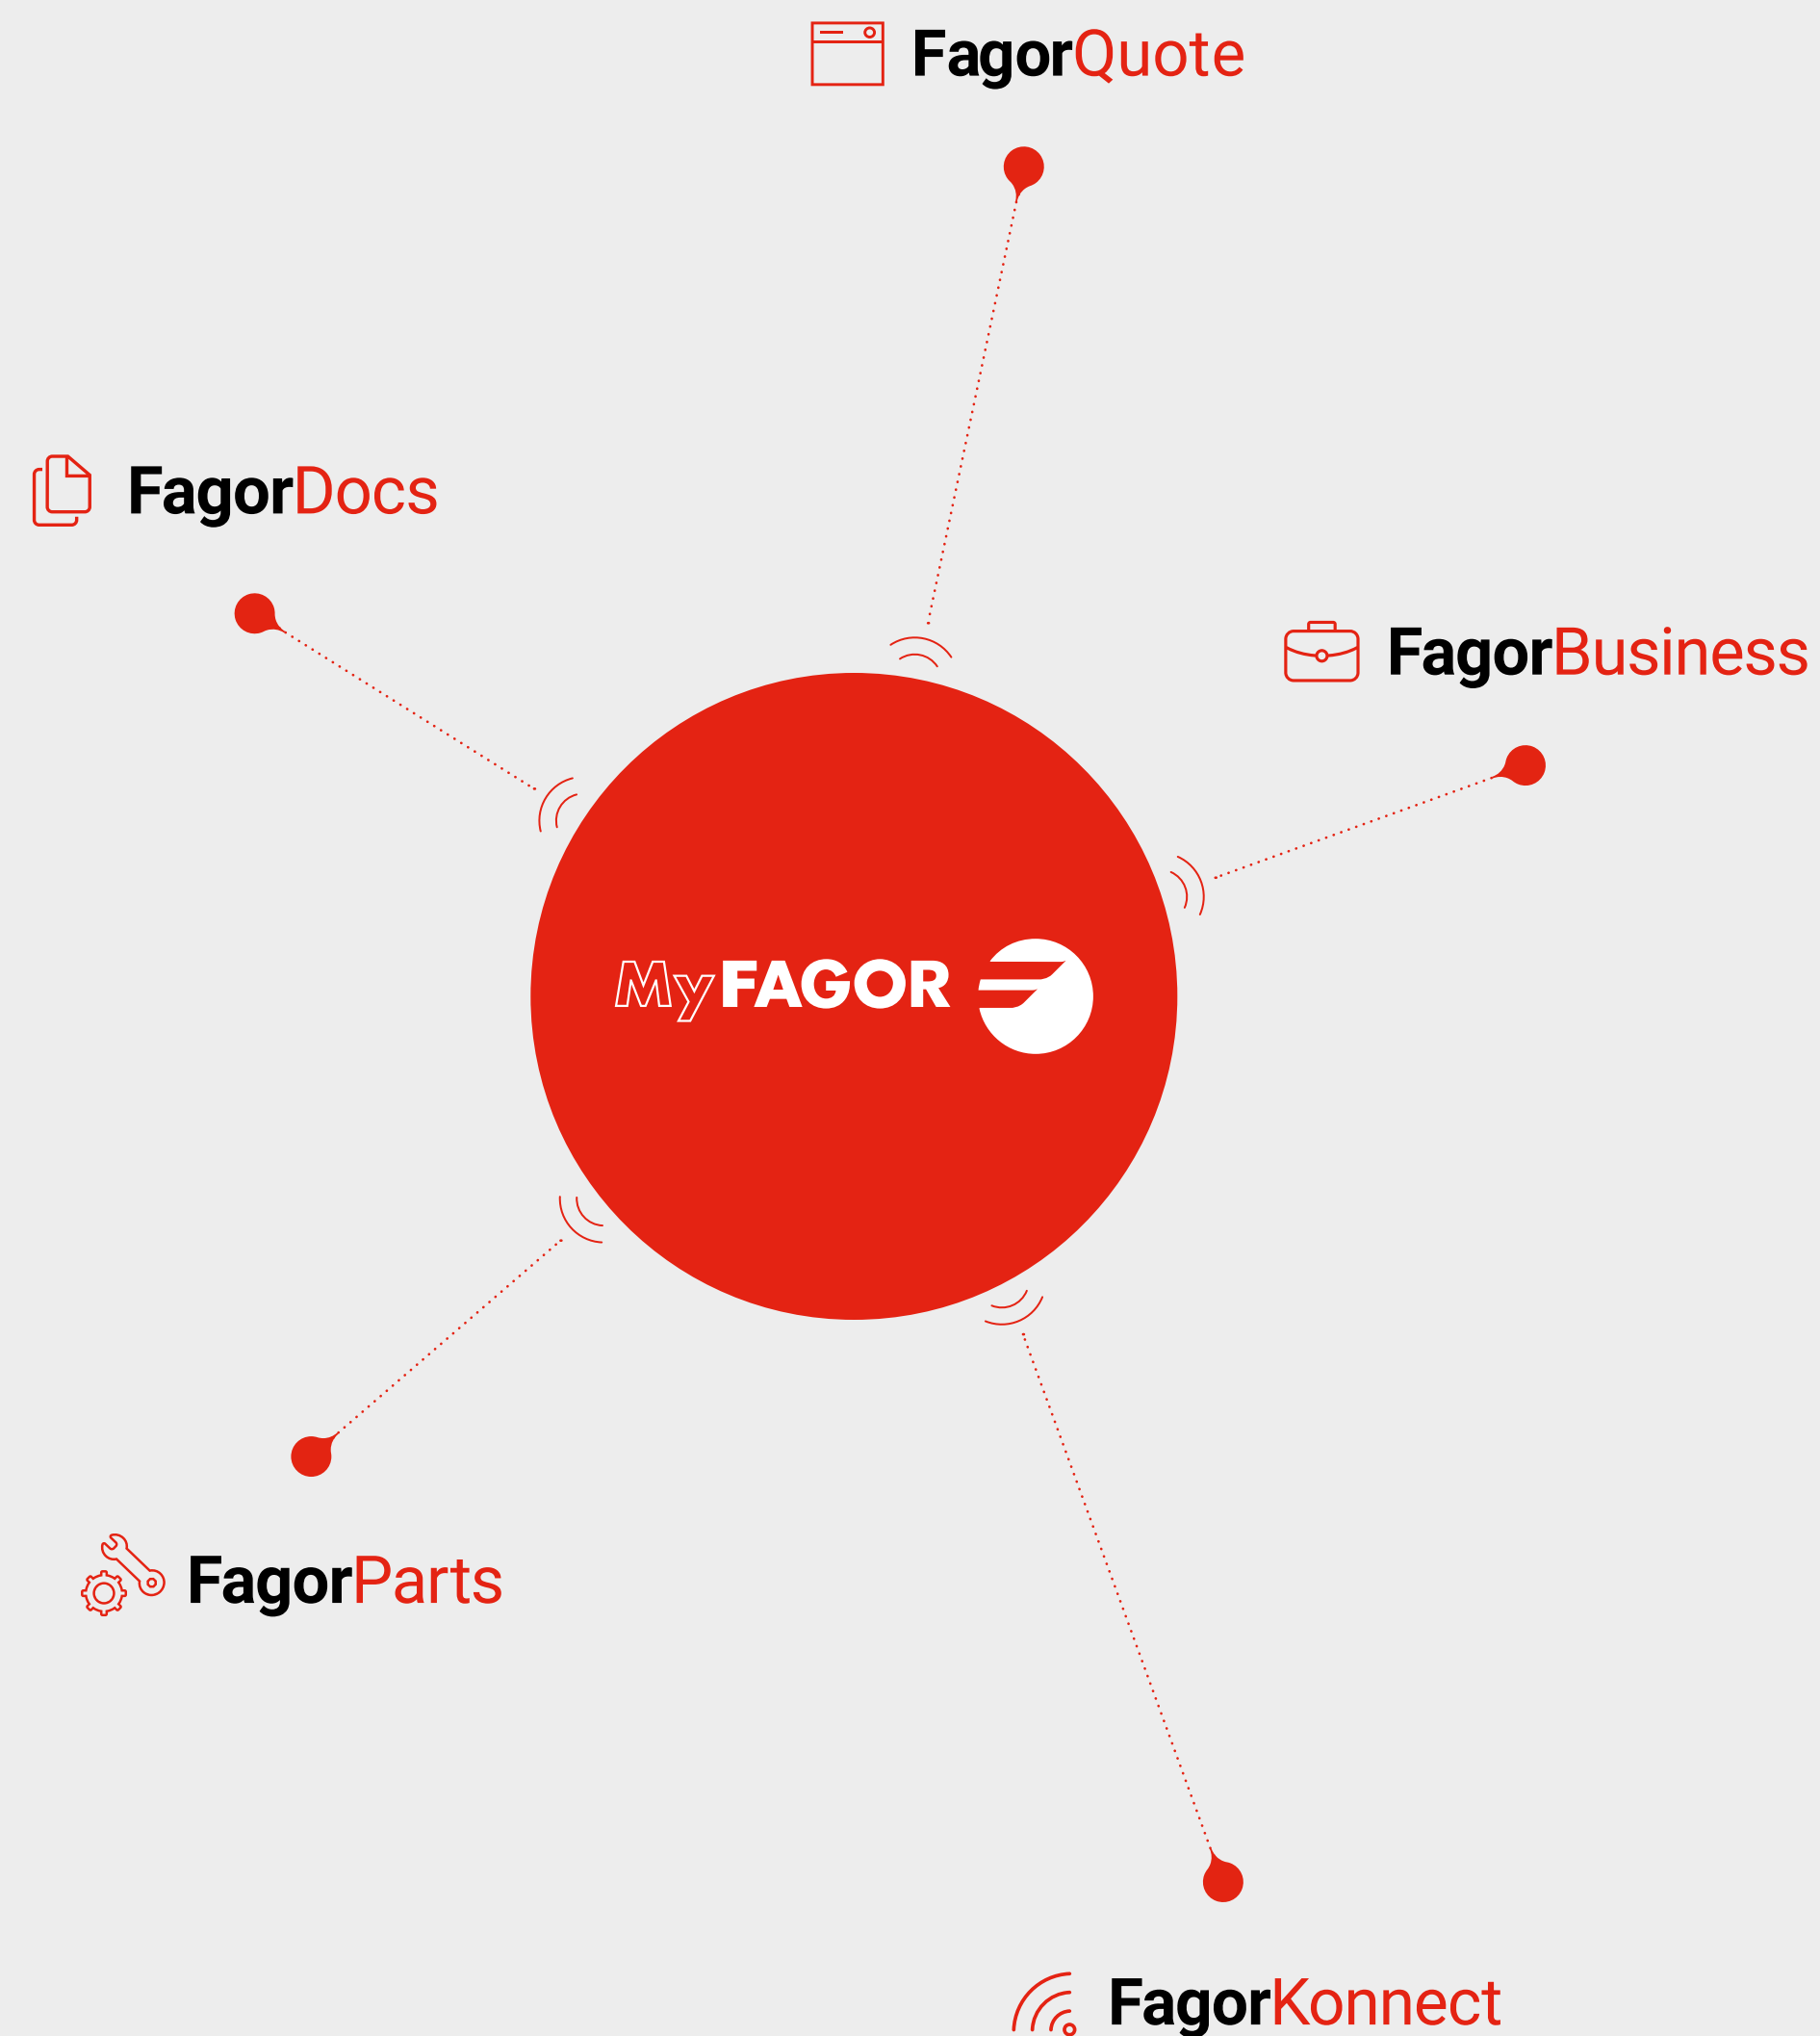

## What we offer

# Efficiency in your everyday work.

In order to **meet your needs and make your everyday work easier**, we wanted to take a step towards digitalisation, shifting from offering tailored products for each professional, to creating an **ecosystem of digital services** that come together to provide an added value that is difficult to match.

In this digital evolution, we wanted to focus on **servitisation** and the benefits it allows us to offer you.

## That is how MyFagor came about.

**Your exclusive digital space** comprising a set of professional services that make the way you grow your business more efficient with us than with any other manufacturer.

## The space that puts all the commercial and technical documentation of your Fagor equipment at your disposal.

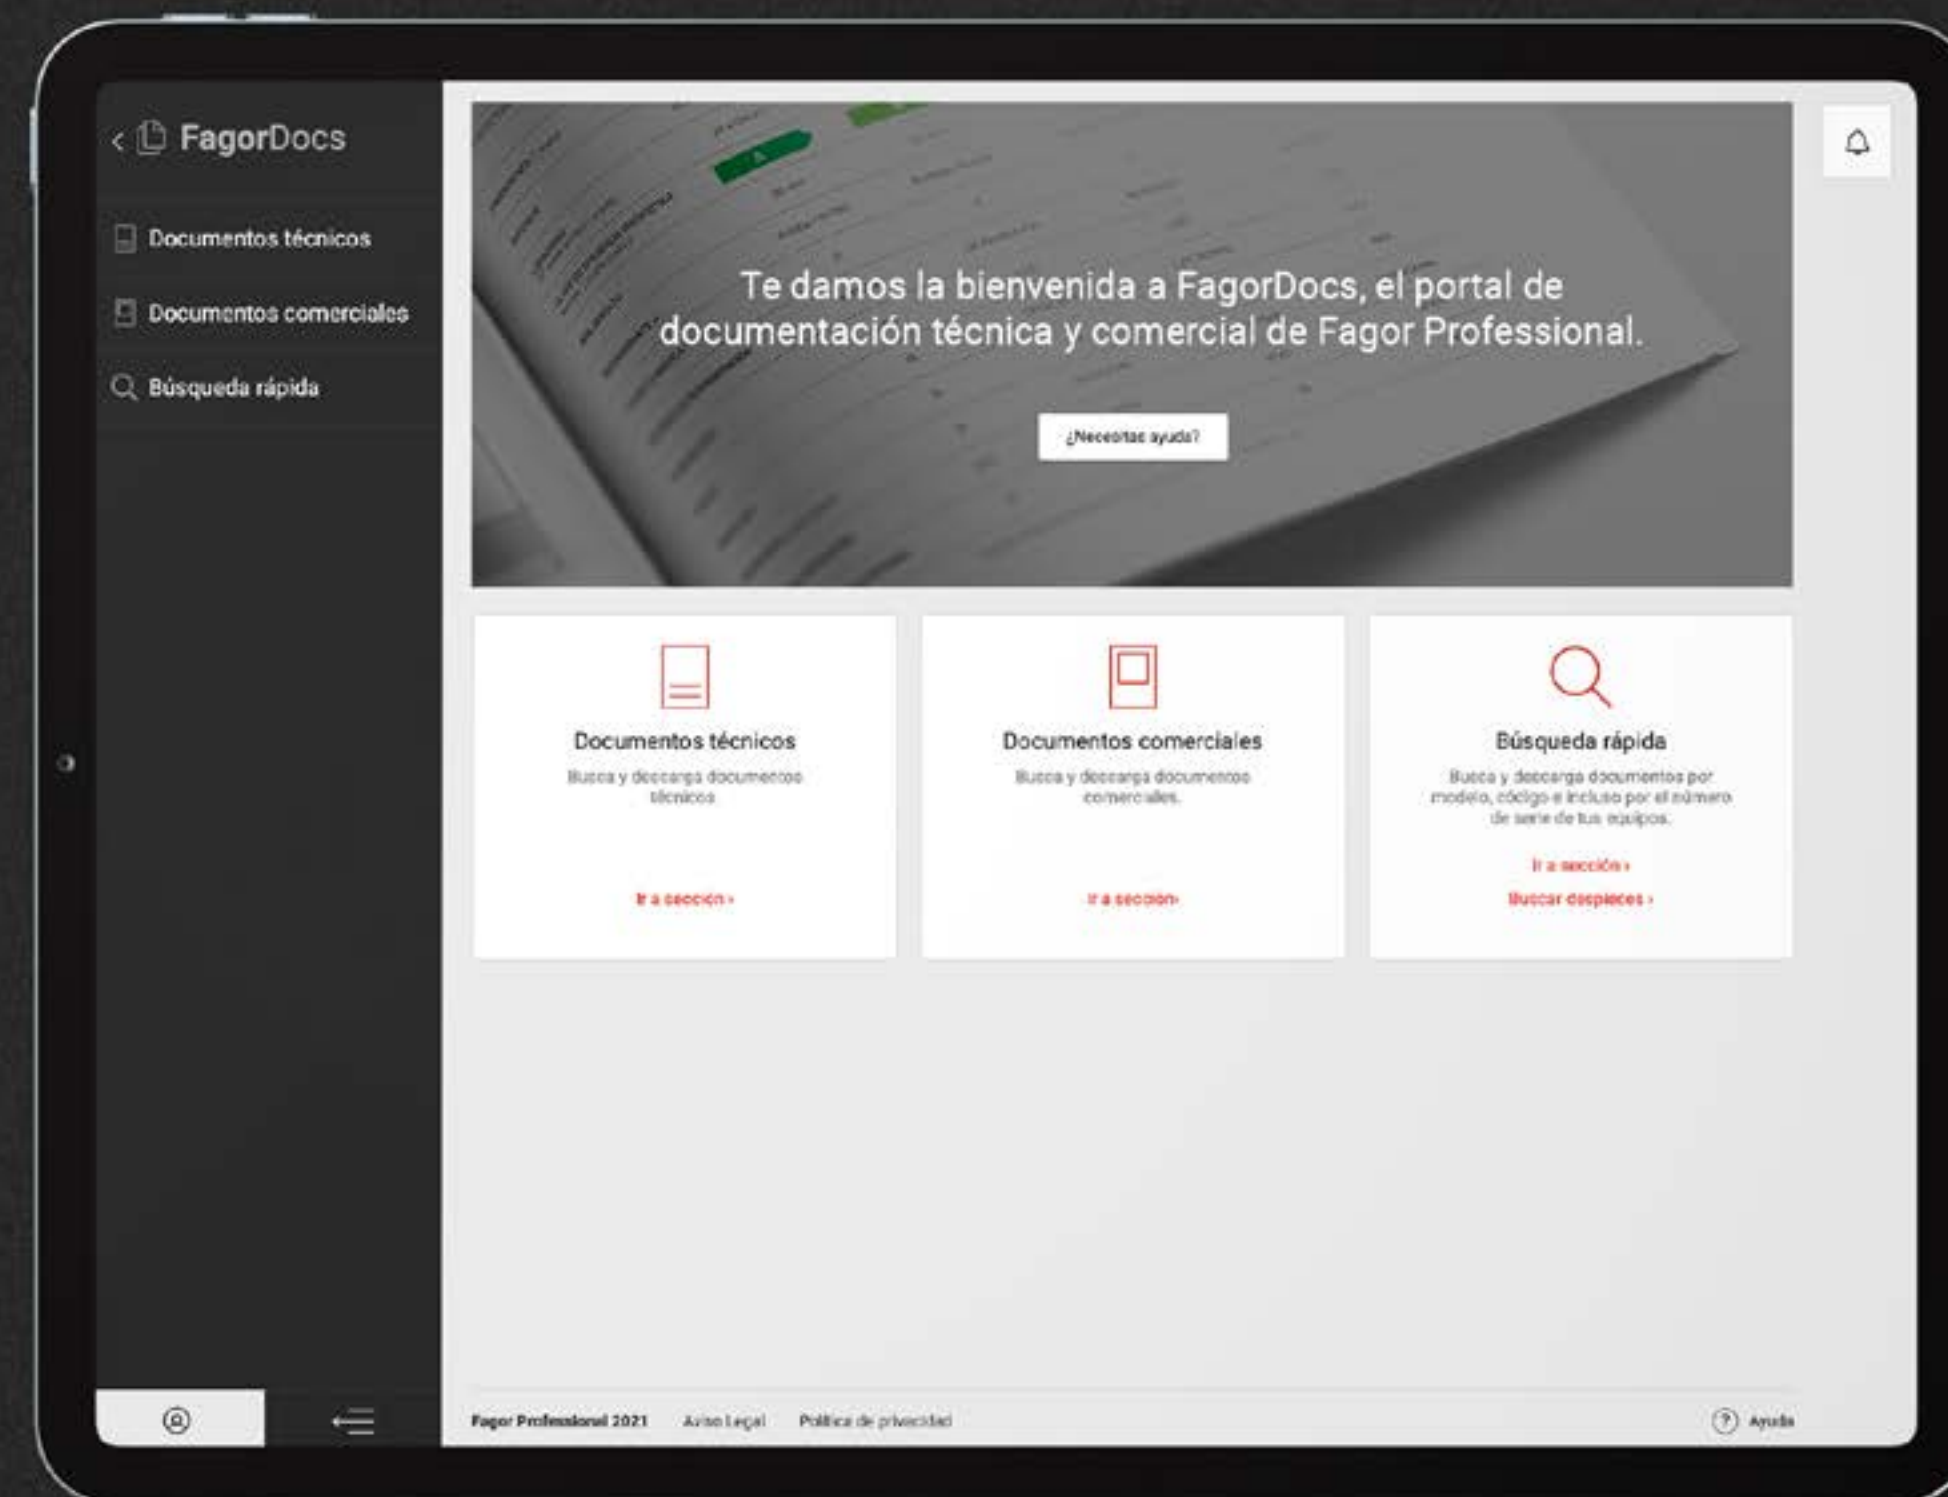

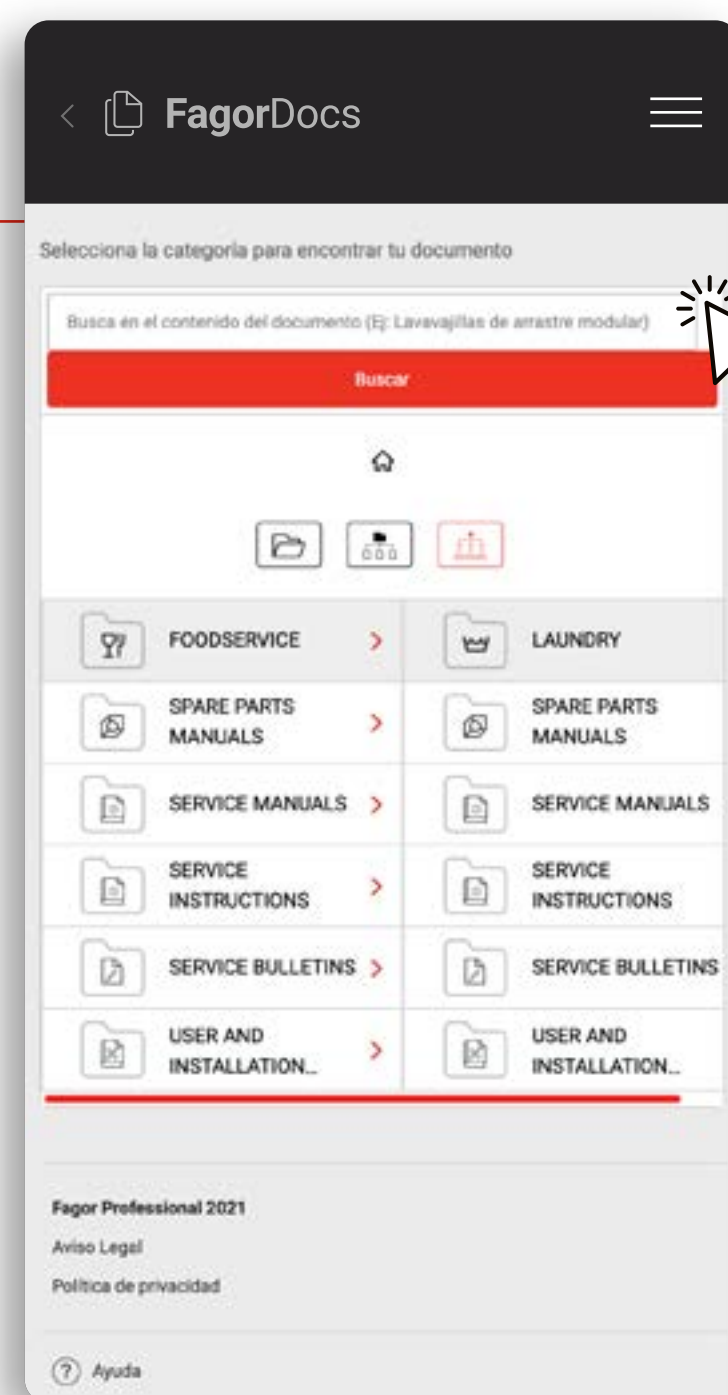

Simpler, more intuitive and more updated.

### 01. Intuitive and simple navigation

Navigate easily through folders with a new display model, and download all their internal content in bulk.

### 02. Quick search

FagorDocs will find the document you need by simply entering the code or serial number of the equipment.

## FagorQuote

### The multi-device online estimator

that allows you to quickly and intuitively create from the simplest to the most complex quotes.

#### 01. Generate customised quotations

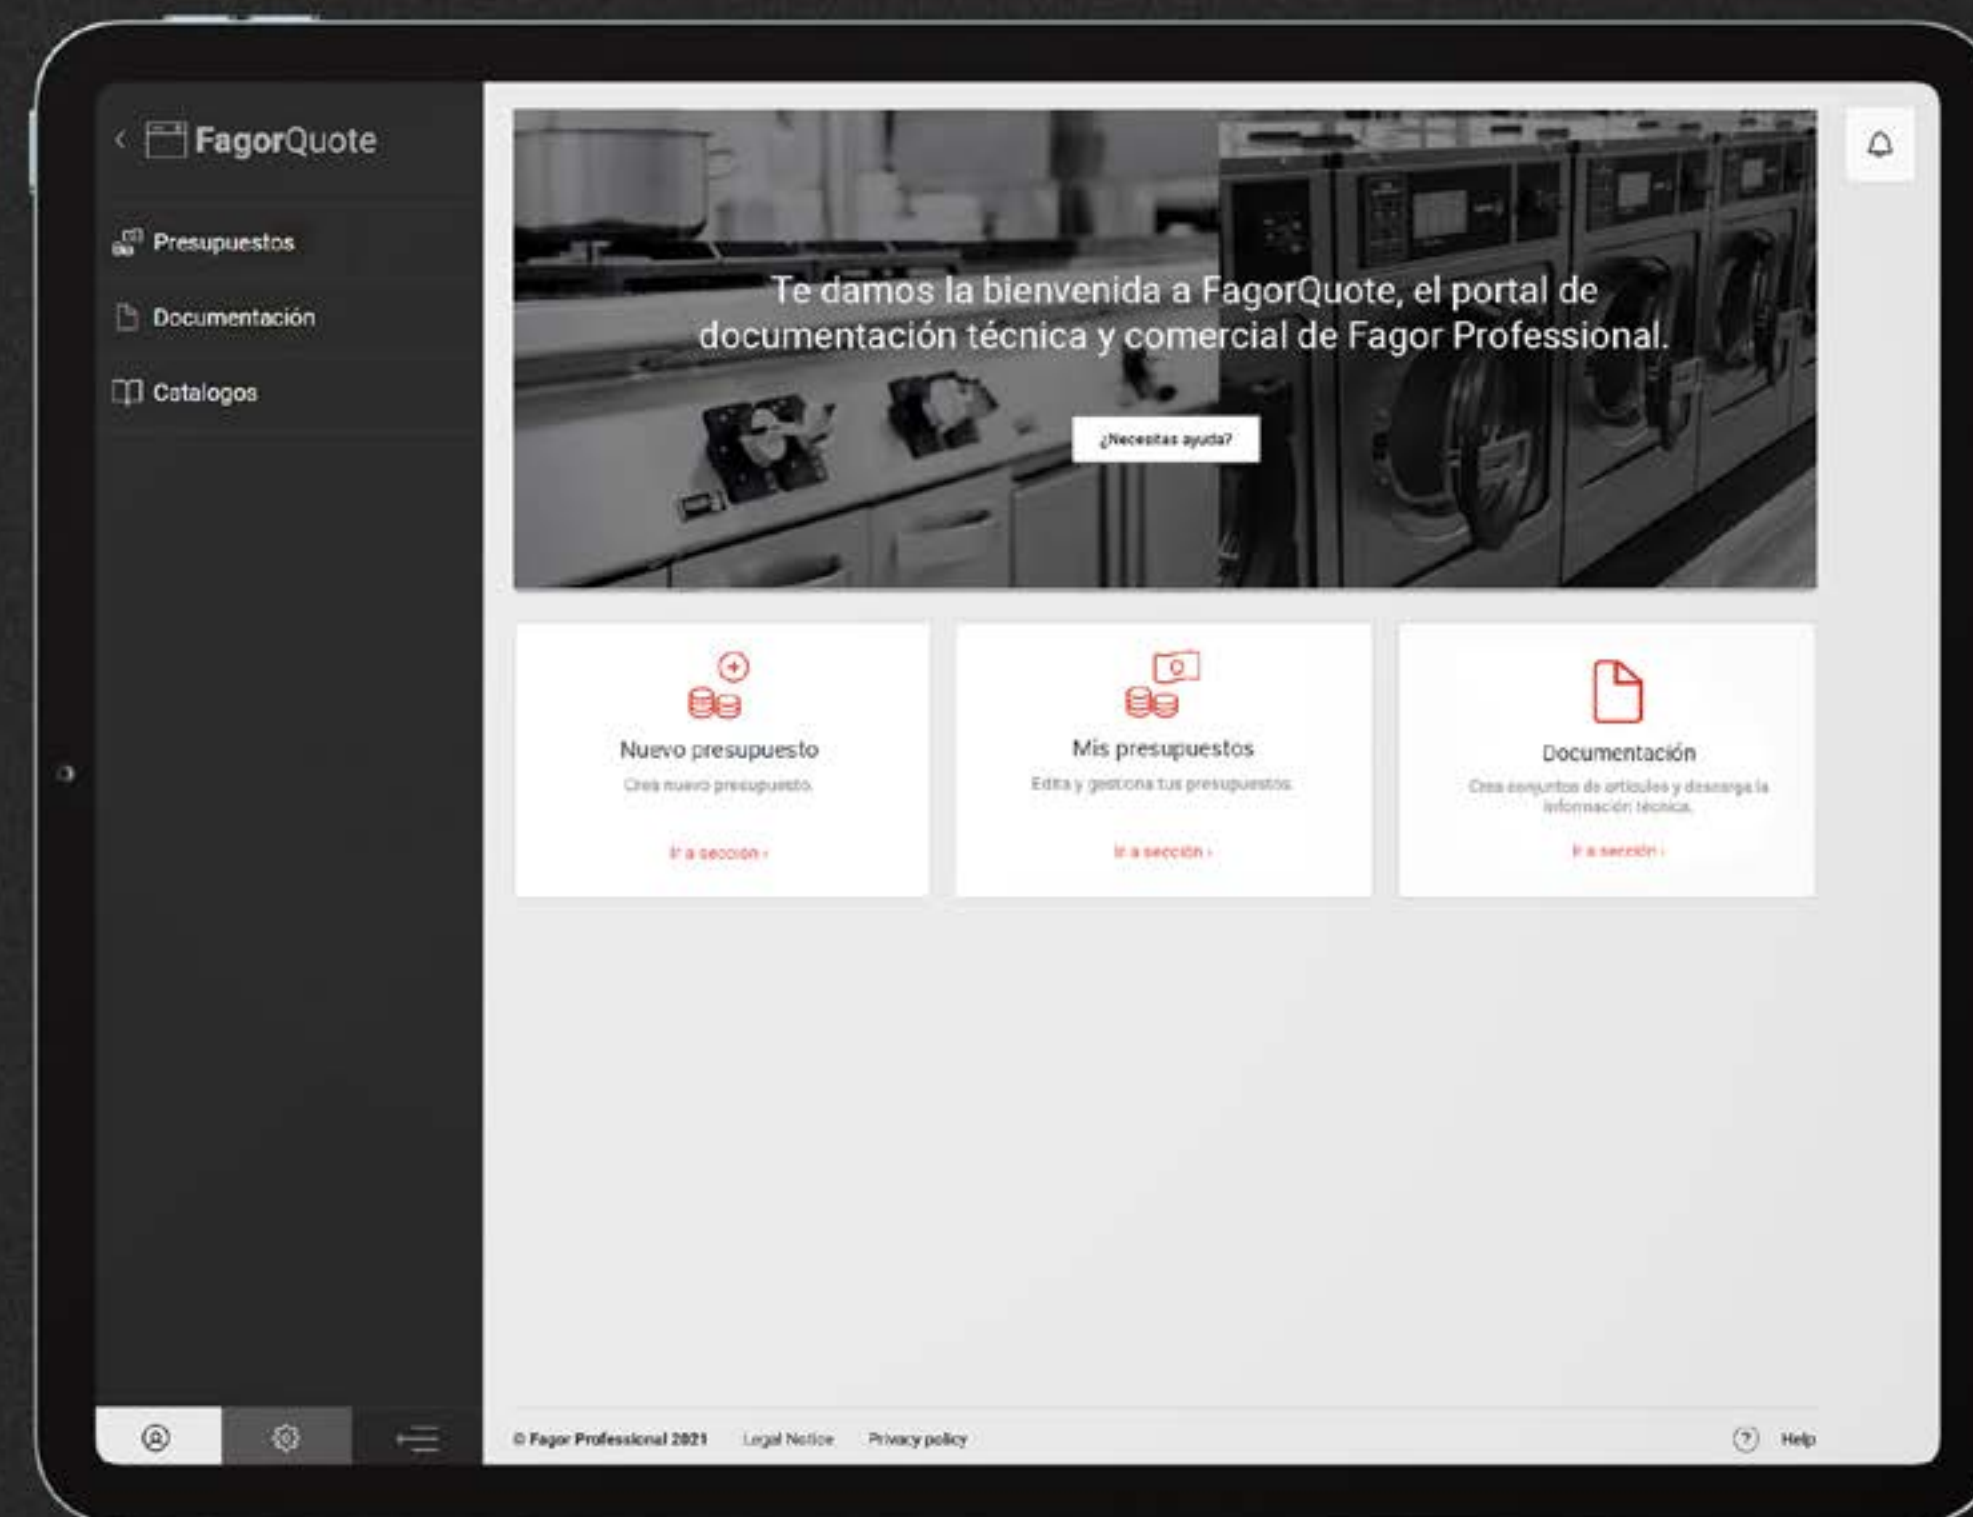

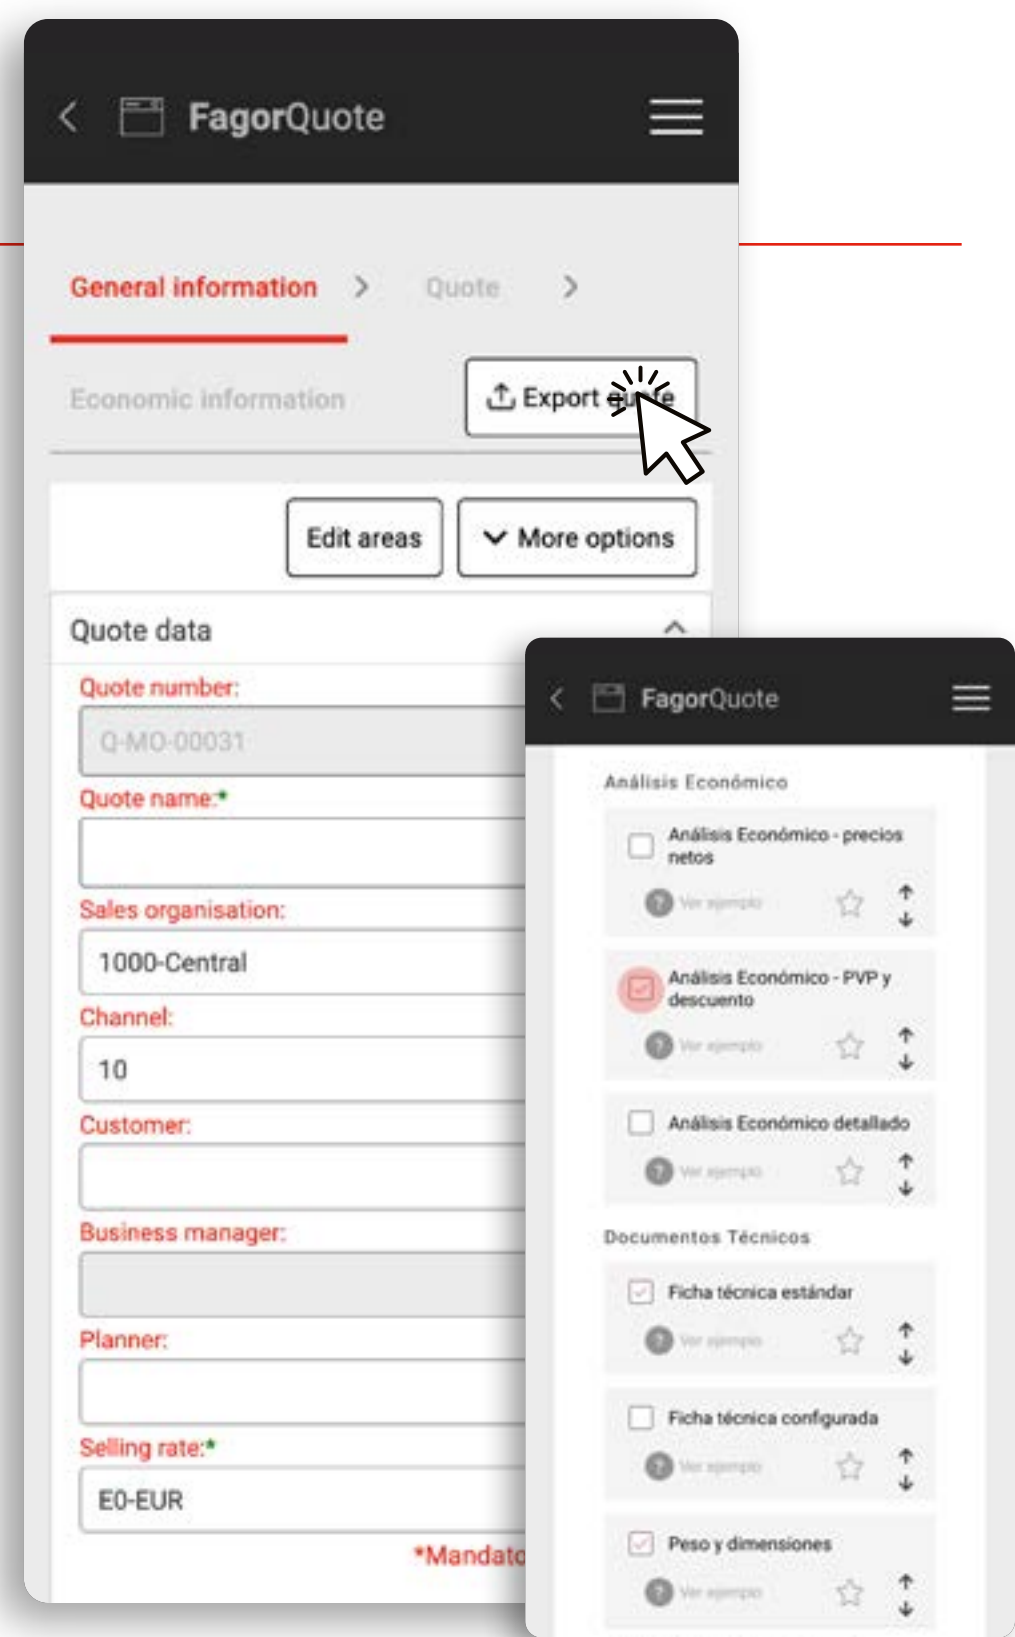

Generate professional quotes in many different formats for your customers (with or without discount, images, etc.).

#### 02. Customised

- Upload catalogues from other manufacturers.
- Save in the library the Fagor products you sell the most.
- Work in the currency of your choice. Your sales team will adapt the sales prices to the currency you choose, with its own discount system.

#### 03. Stock and product possibilities

- Search and configure your products by choosing the options and accessories and get the final price and the configured data sheet.
- Check the stock in real time.

## Your online shopping space

where you can find, buy and get all the information about your spare parts.

Benefit from autonomy and speed, be guided in your searches and check the status of your orders in real time whenever you need it.

**All in one space.**

01.

### Visualisation of spare parts

Identify your spare parts on the 360° photos of each part or in the explosion view, easily manage the spare parts under warranty and check their availability.

02.

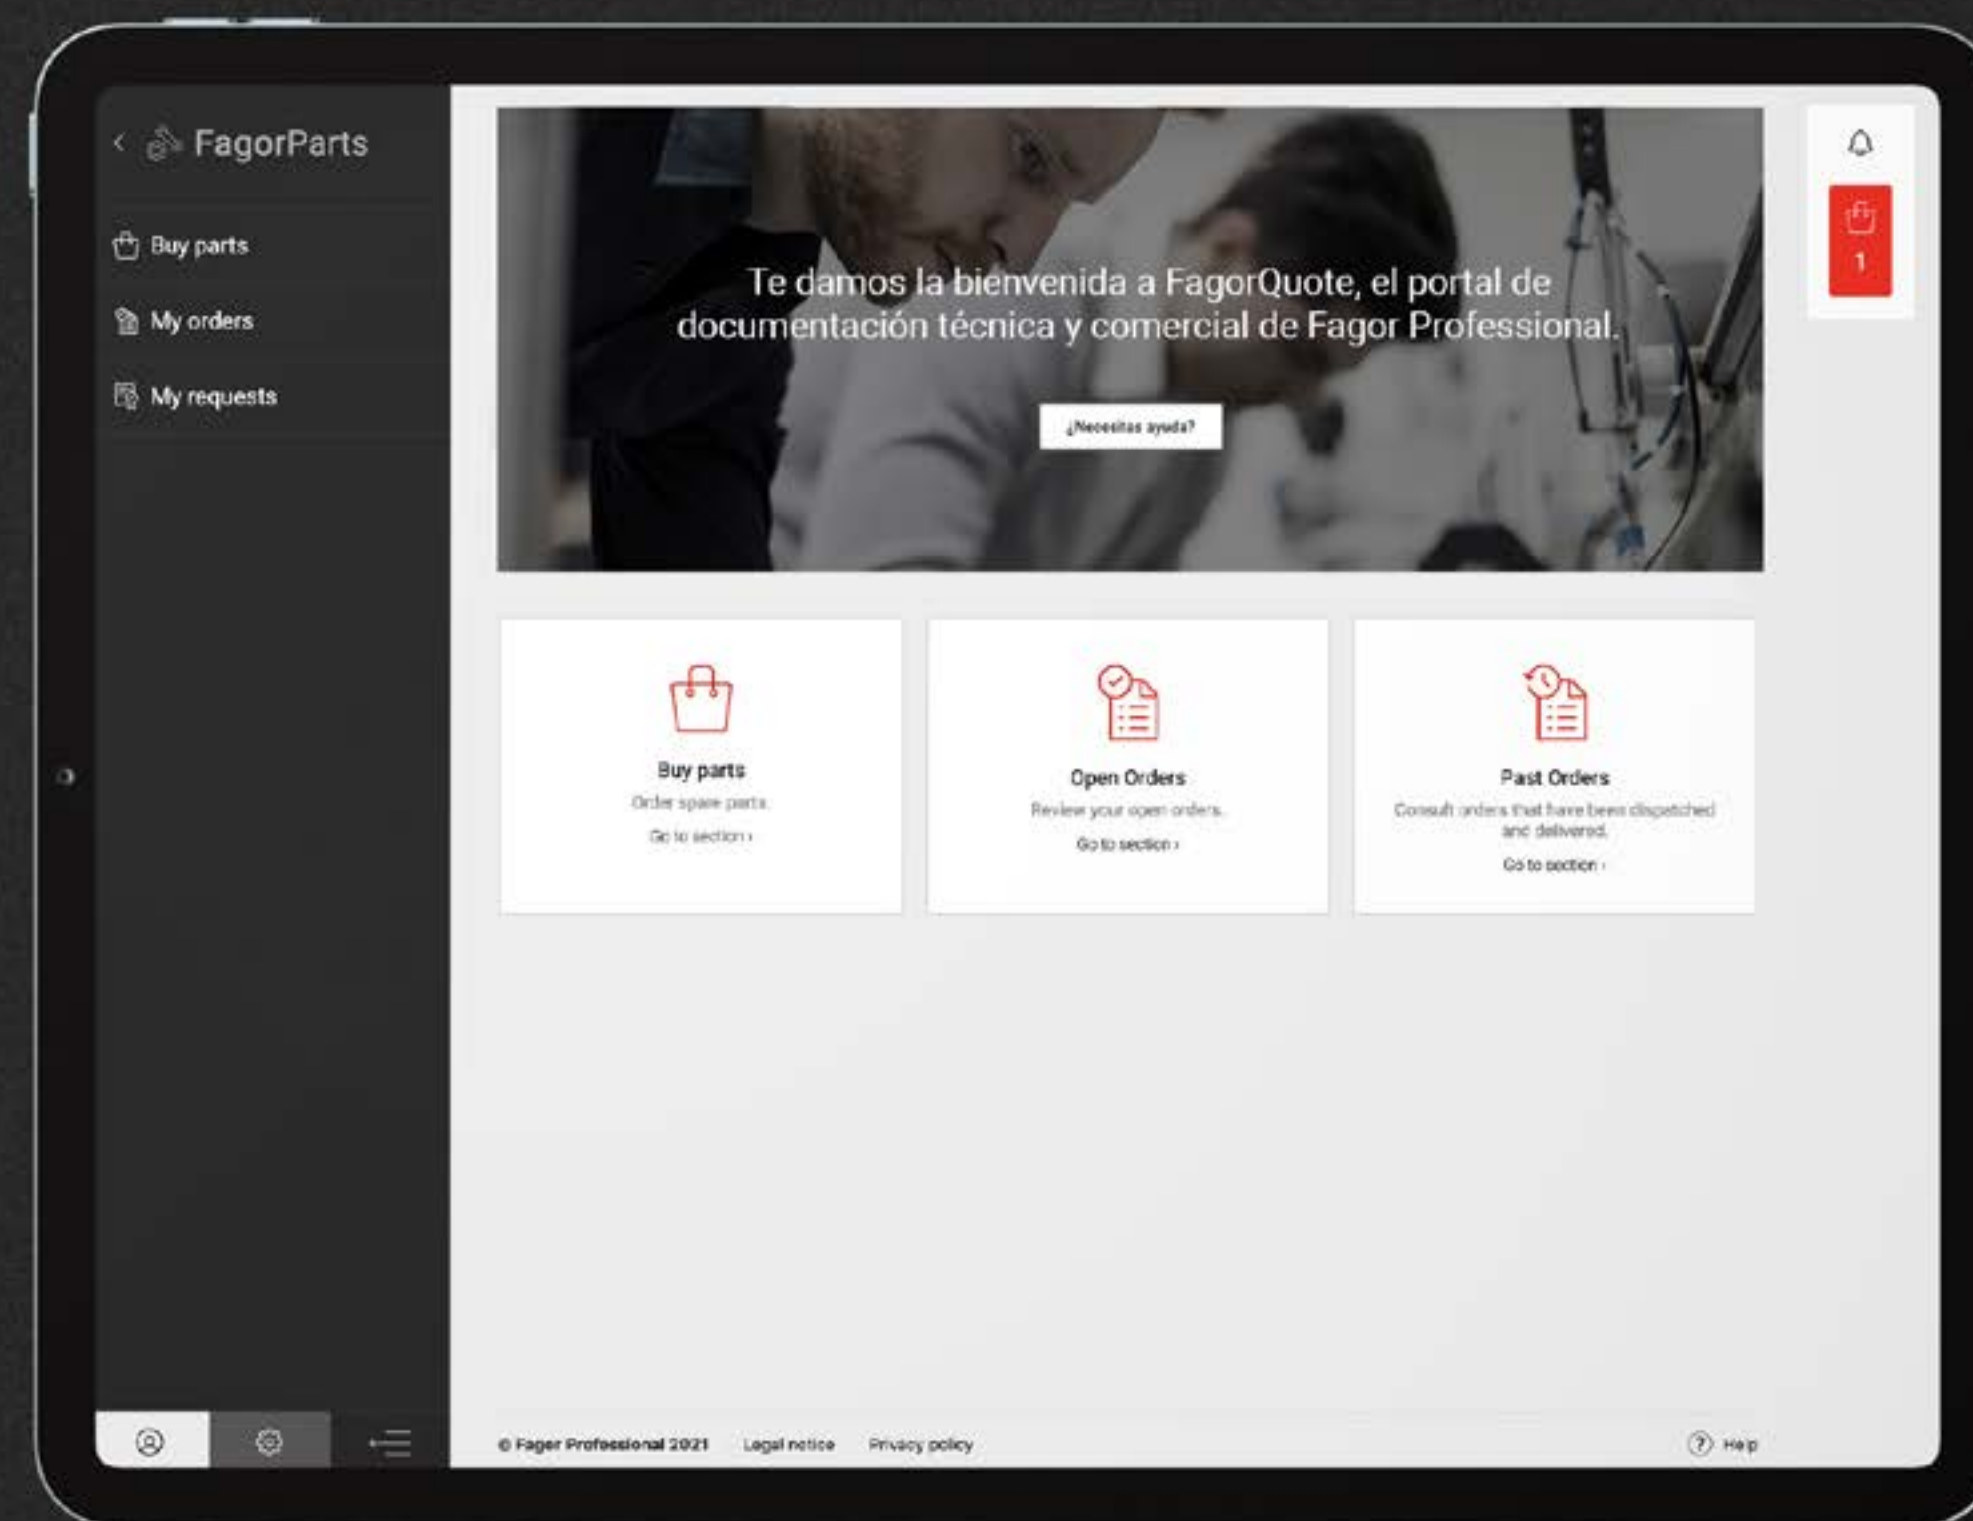

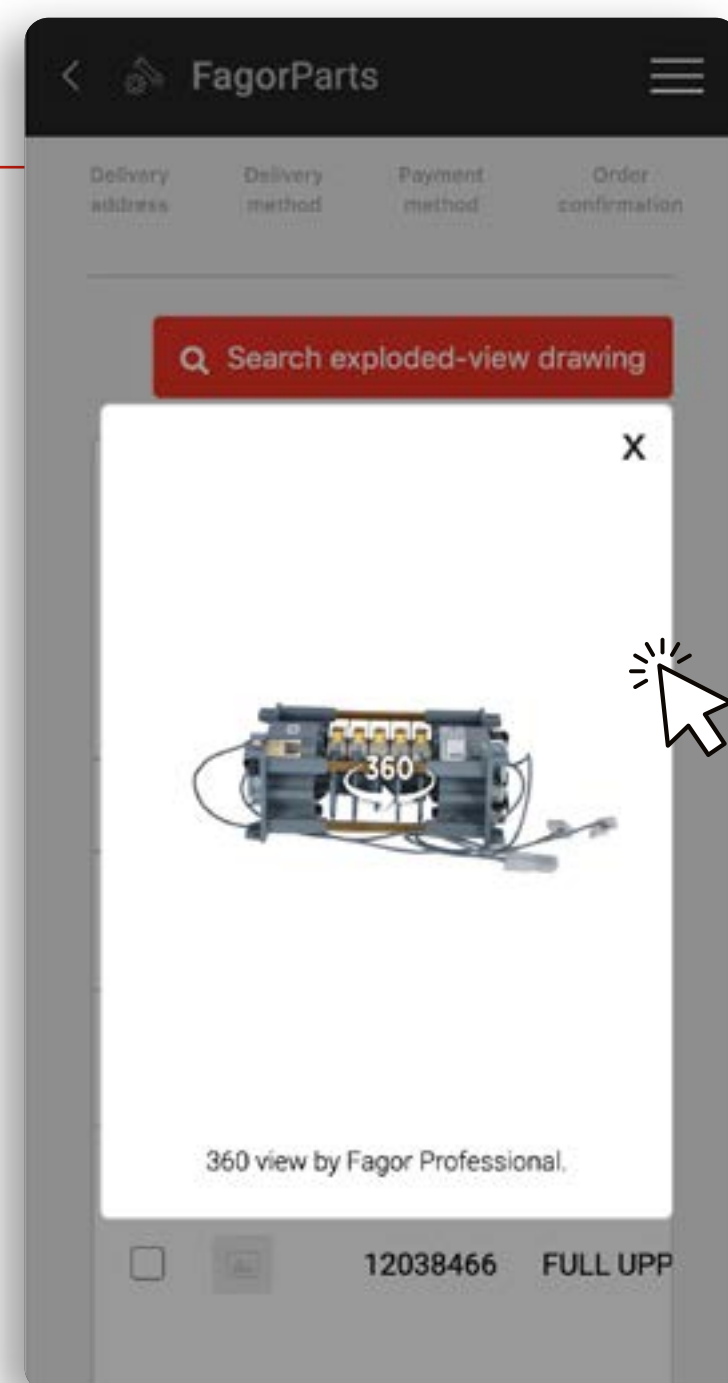

### Buy spare parts

Buy online and pay as you wish. Choose your usual payment method or credit card.

03.

### Order tracking

Follow the delivery status of your order in detail.

## All the necessary documents at your disposal

to get a complete overview of your business with us, at any time and in any place, without waiting, to consult the details of our relationship, both operational and financial.

01.

### Quick search

Find your offers, orders, delivery notes and invoices quickly and easily.

02.

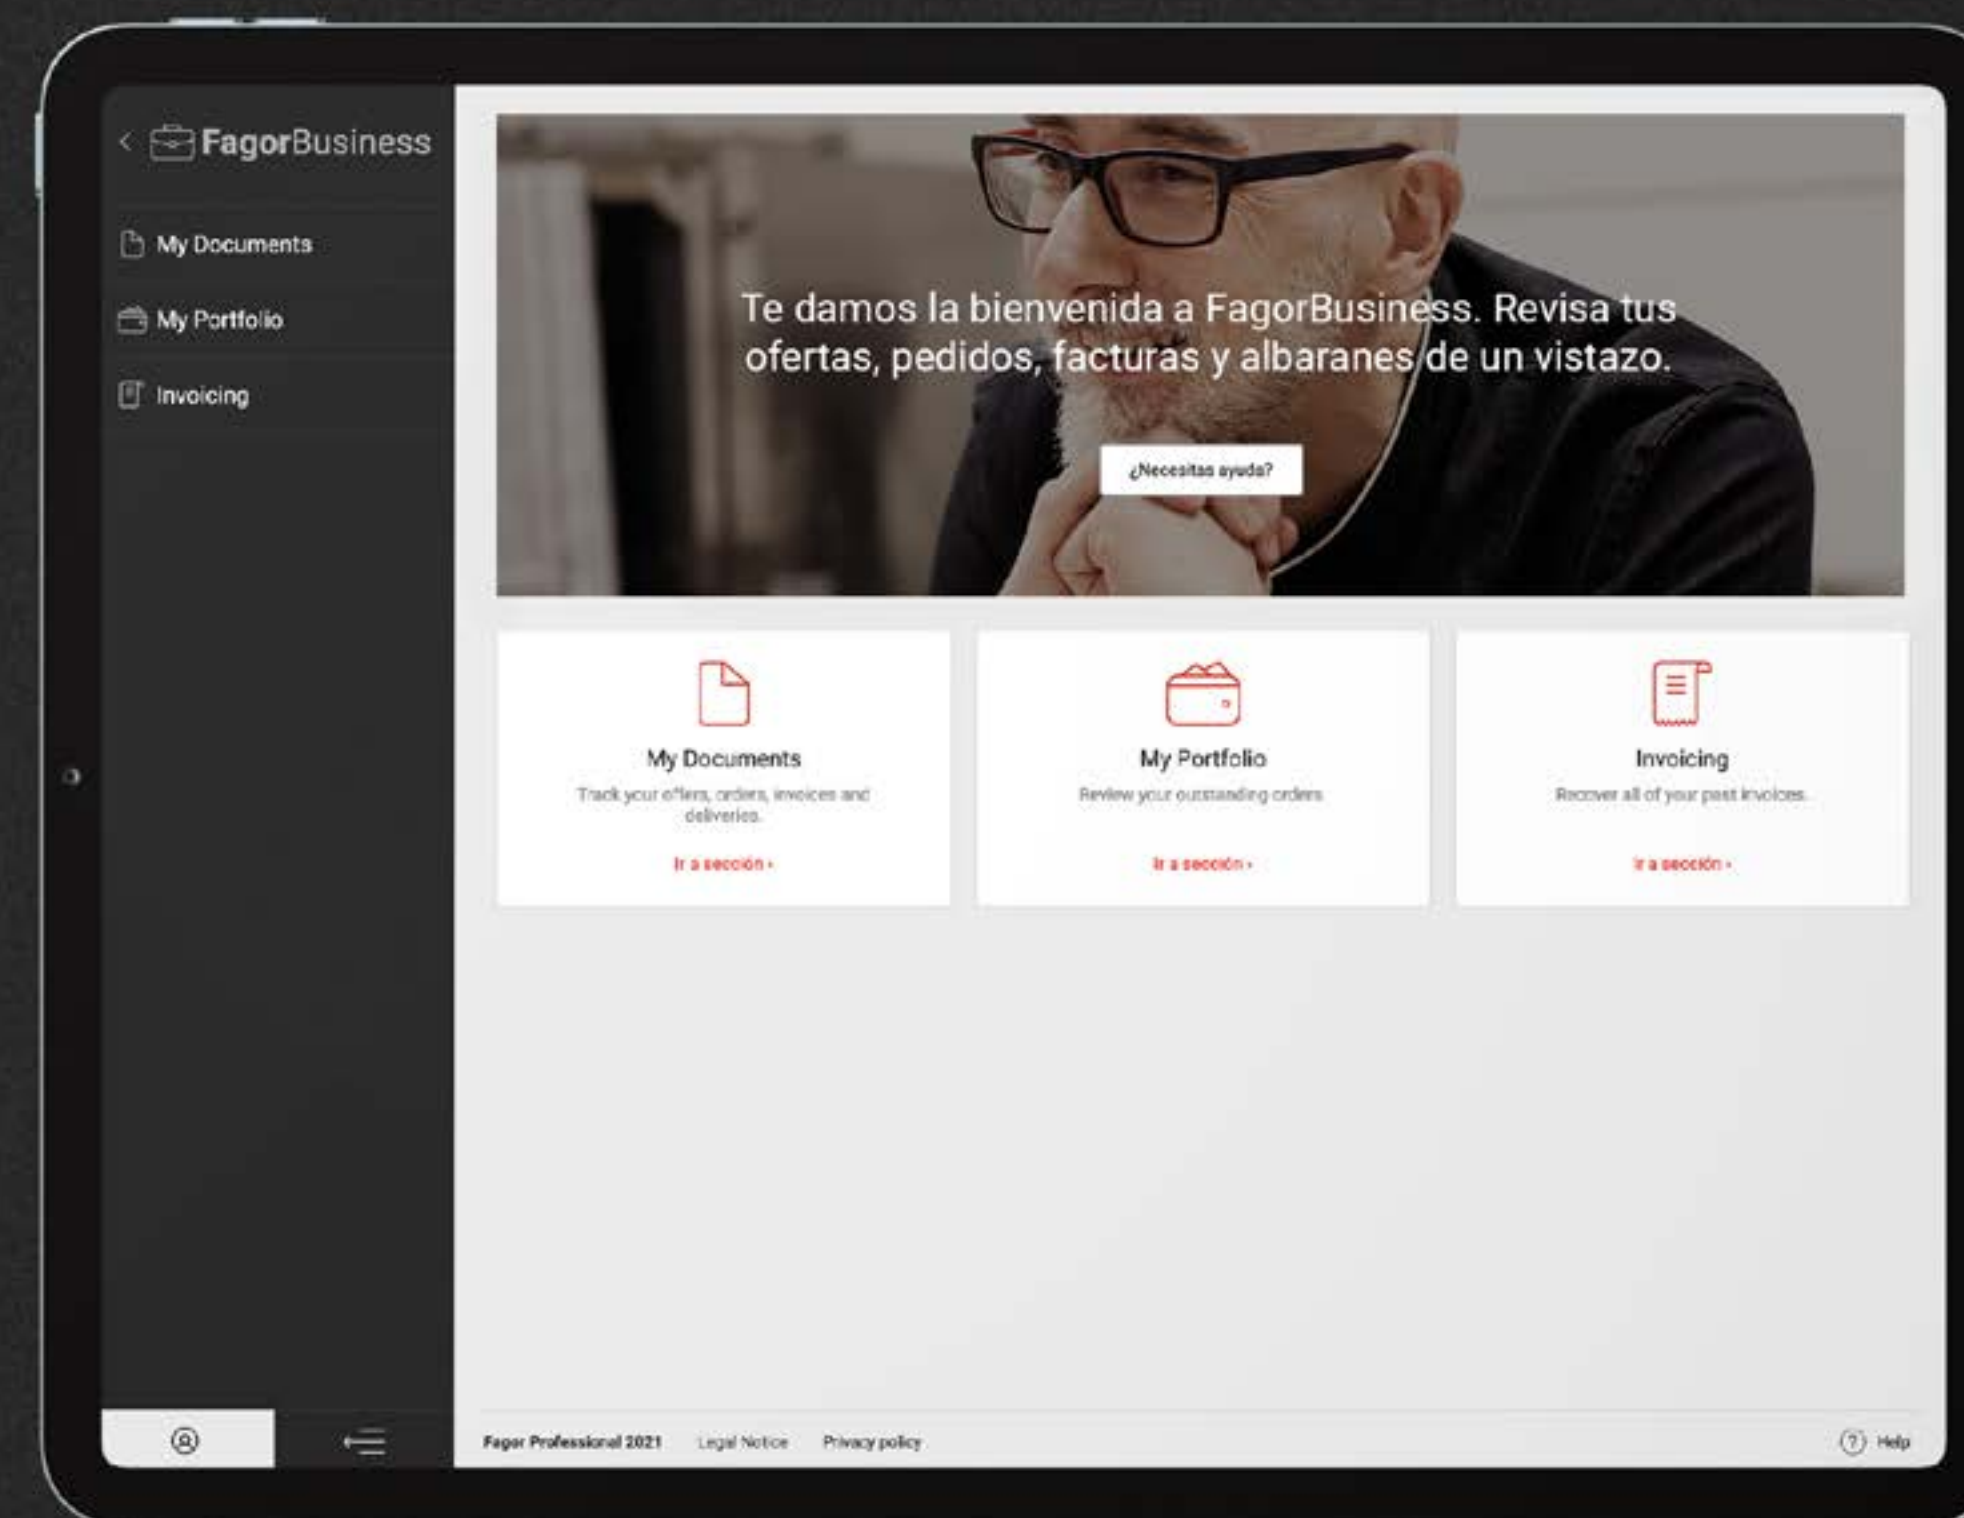

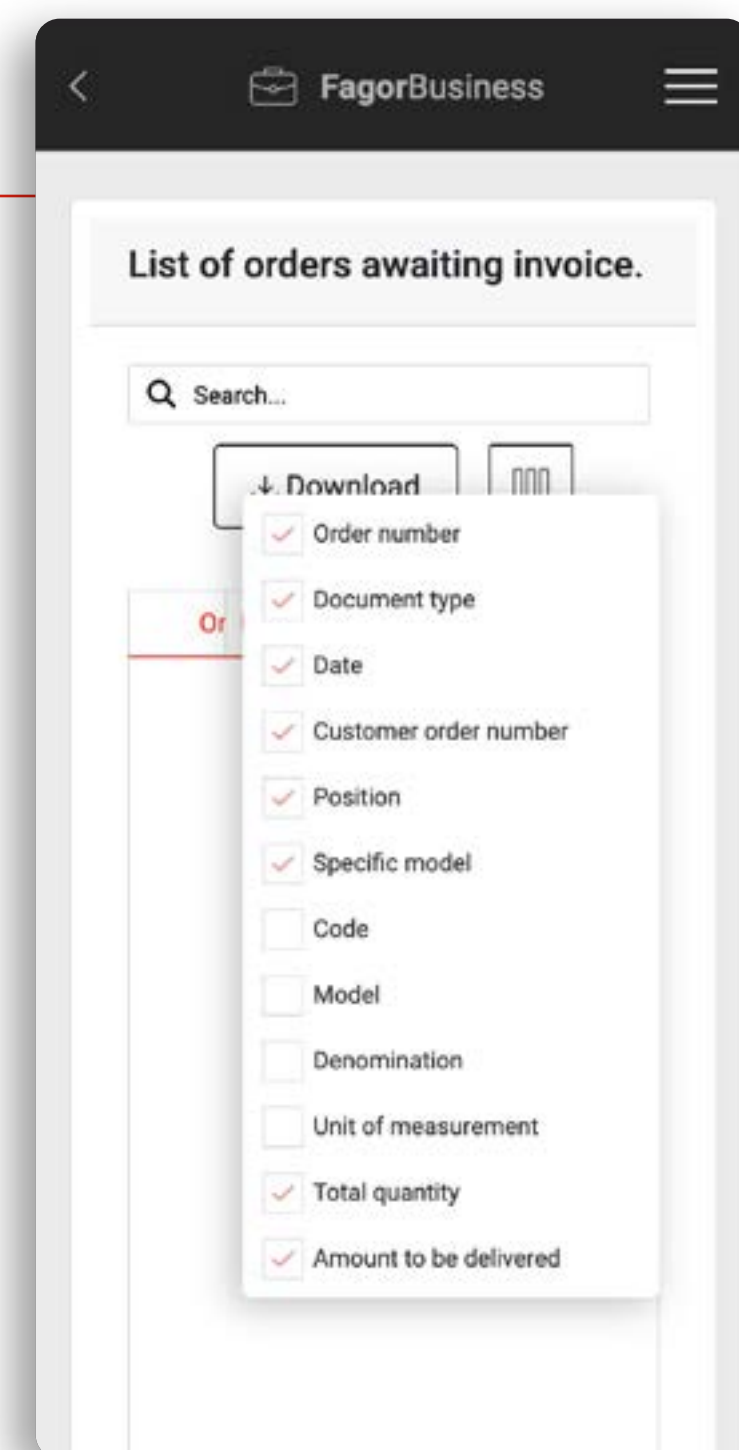

### Up to date information

Take advantage of the information at our disposal, with the same detail and updated in real time.

03.

### Filter and organise information

Analyse information efficiently, with advanced filters, facilitating your processes.

## Manage all your restaurant and laundry equipment remotely.

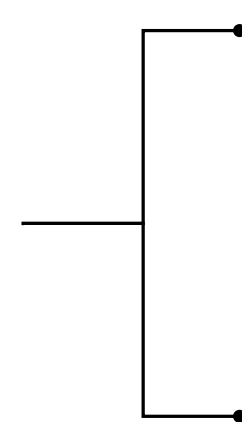

Connect with all your machines, being able to control and execute processes remotely and achieve maximum efficiency.

### How does it work?

Your Fagor equipment is connected to the cloud and can be accessed via app.

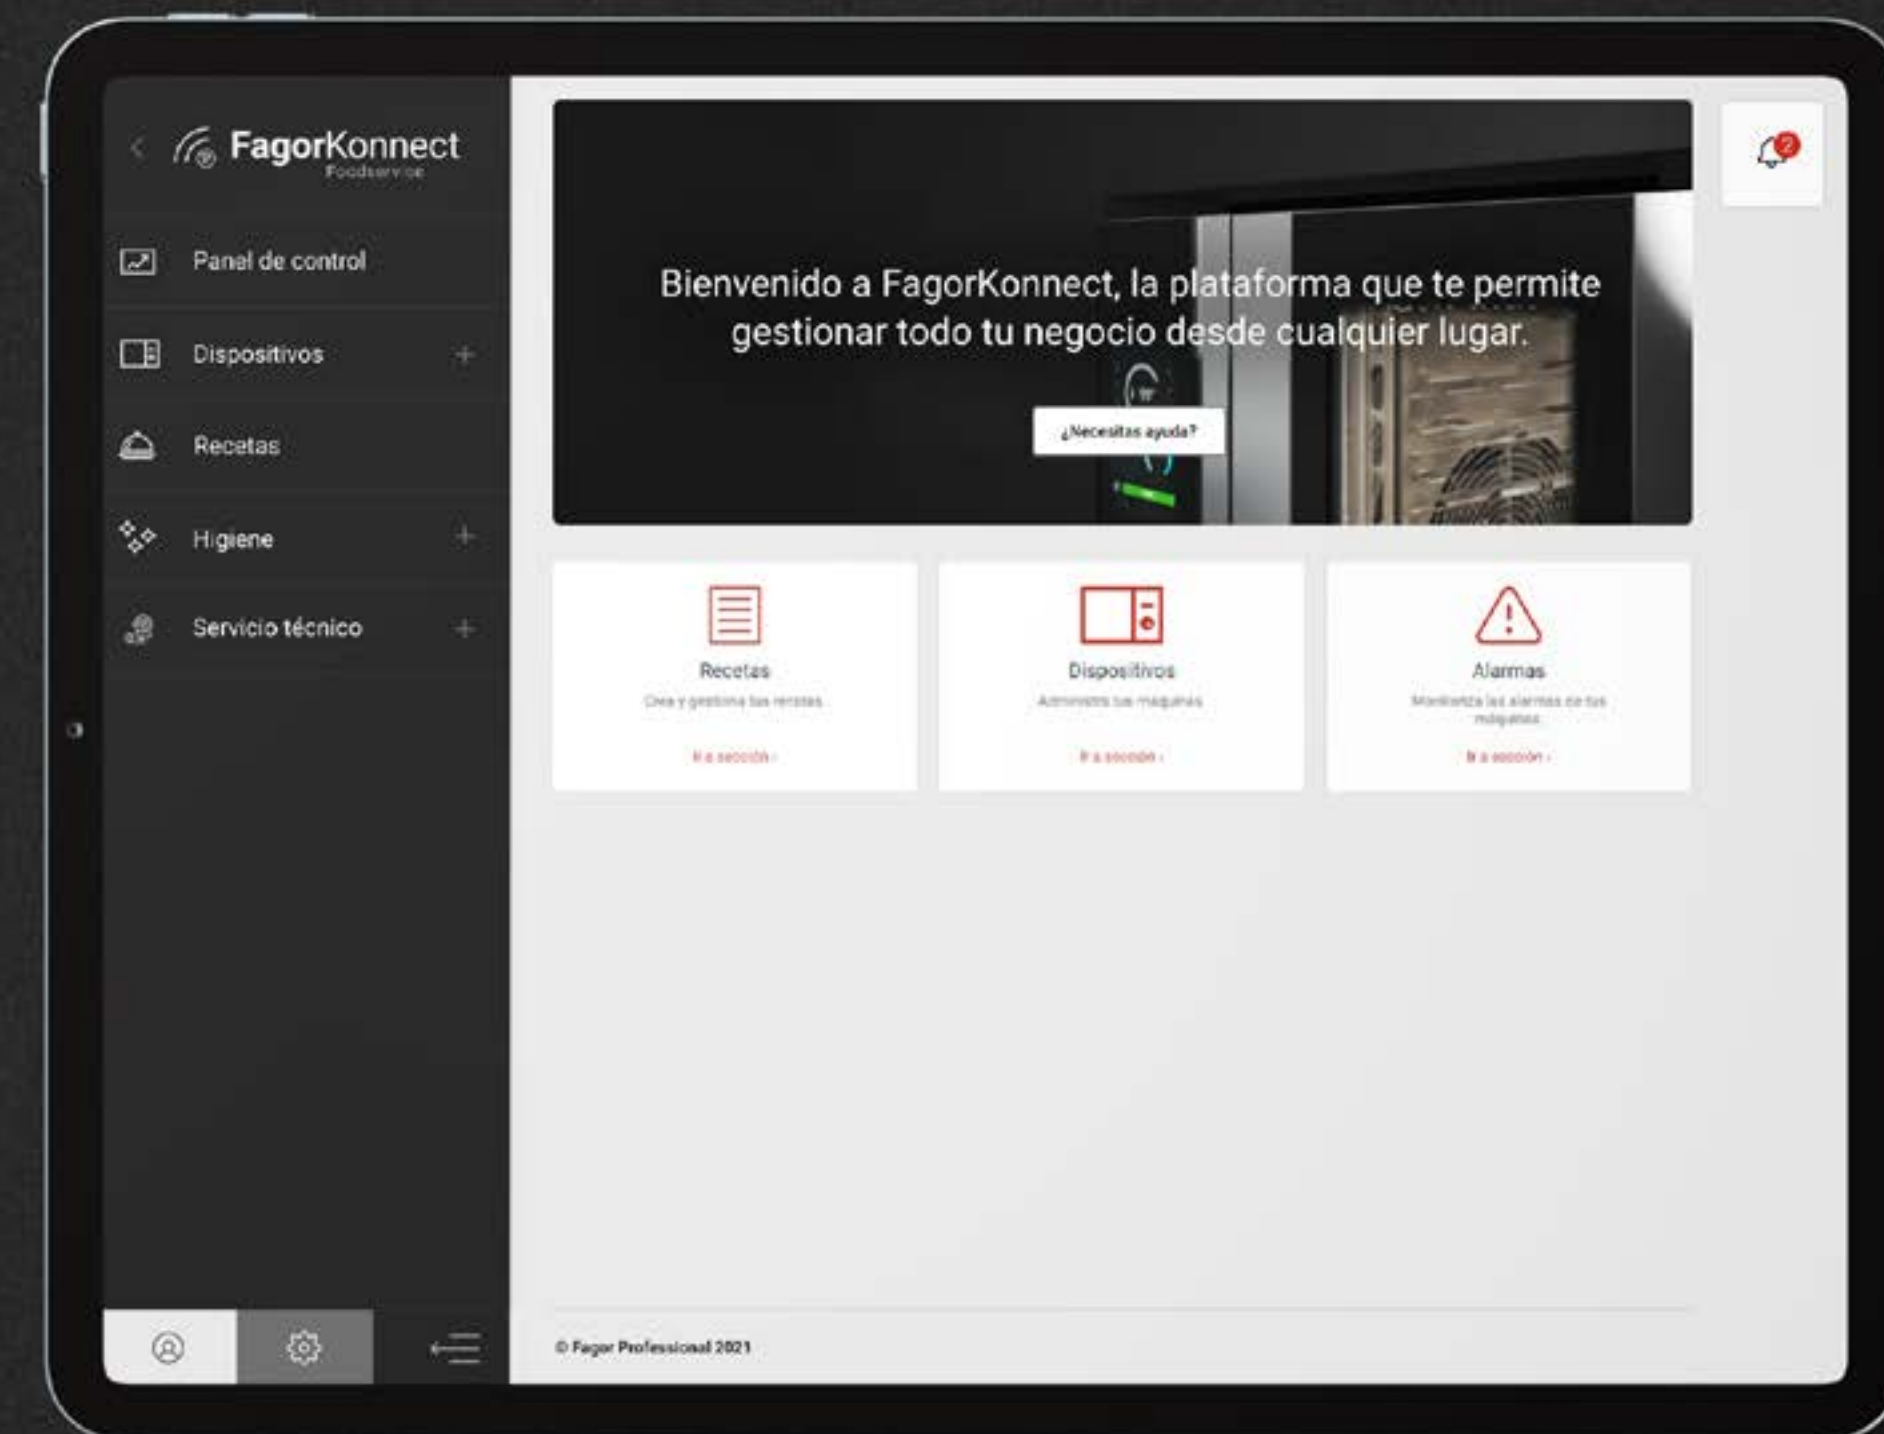

This way you can control and execute the processes of your equipment remotely.

Created for all professionals who have Fagor equipment and want to be able to freely control it wherever they are.

- \_Visualise the status of your machines in real time.
- \_Manage your machines.
- \_Create and manage recipes.
- \_Visualise the washing status of your devices.
- \_Access to historical data and incidents.

Monitor the alarms of your machines.
